dr. sc. Francesca Berini

„Microbial platforms for the production of nutraceuticals“

Poštovani,

pozivamo vas na predavanje koje će održati

dr. sc. Francesca Berini, Group of Microbial Biotechnology, Department of Biotechnology and Life Sciences, University of Insubria, Varese, Italija

u četvrtak **4. svibnja 2023. u 8.30 h**

**na Prehrambeno-biotehnološkom fakultetu, Sveučilišta u Zagrebu,
u predavaonici 2, prizemlje, Pierottijeva 6.**

Dr. Berini will report on microbial production of nutraceuticals such as carotenoids, polyphenols and polyunsaturated fatty acids, illustrating the most innovative approaches for their production in microorganisms, exploiting homologous and/or heterologous platforms.
