Orleans, the 16th of December

Subject: Letter of Support for Hosting Kristijan Vuraić, Visiting PhD Student

To whom it may concern,

On behalf of the Centre de Biophysique Moléculaire, CNRS - Orléans, I am pleased to confirm our willingness to host **Kristijan Vuraić**, a Visiting PhD Student, in our laboratory under the supervision of **Dr. Béatrice Vallée**, PhD, team leader of the group "Cell Signalling and Neurofibromatosis." The visit is scheduled from **28th of April to 31st of July 2025**, during which Dr. Vallée and our lab will provide dedicated support to ensure a successful and enriching experience.

We confirm that Dr. Vallée will remain actively engaged with the Centre de Biophysique Moléculaire, CNRS - Orléans, throughout the entire mobility period and will oversee the training plan designed for Mr. Vuraić. This plan will focus on advanced scientific methodologies aligned with our lab's expertise and Kristijan's research goals.

To support Mr. Vuraić during his stay, the Centre de Biophysique Moléculaire, CNRS - Orléans will provide:

- **Administrative and logistical support** to facilitate his integration and work environment, including assistance with accommodation and institutional requirements.
- **Technical support**, including access to necessary equipment, laboratory facilities, and other resources required for the proposed scientific training.
- **Collaborative support**, allowing Mr. Vuraić to engage with our research groups and collaborators, enhancing the scope and quality of his work.
- **Mentorship and supervision** by Dr. Vallée, who will dedicate time and expertise to ensure Mr. Vuraić's training is comprehensive and effective.

We fully endorse the engagement of Dr. Vallée and our research teams for the entire duration of this visit. Their involvement reflects our commitment to fostering scientific development and collaboration.

We are confident that this collaboration will contribute meaningfully to Mr. Vuraić's professional growth while complementing the ongoing efforts of our research teams. Please do not hesitate to contact us should you require additional information.

Yours faithfully,

Matthieu Réfrégiers

Docteur Matthieu RÉFREGIERS
